

## ▶ Product line: Brake discs

## ▶ Information about products

Dear Sirs,

We are pleased to announce that we have in our offer high carbon brake discs and drilled brake discs. Information about these products has been sent to you in the previous newsletter. The aim of supplementing the information, we explain in detail below.

High carbon brake discs are made of gray cast iron high quality, with a touch of graphite. This causes in more efficient heat transfer, reduces the temperature fluctuation as well as thermal deformation. This solution affects a better comfort during braking, eliminating vibration and better efficiency of the braking process. High carbon discs are more resistant to external factors than the standard discs, as well as longer life.

ref.	name	application	status
PRD2675	high carbon brake disc	RENAULT KANGOO 1.6/1.5dCi 08-	available
PRD2743	high carbon brake disc	AUDI A4, A5 1.8TFSI-3.2FSI 06.07-	available from February 2016
PRD2744	high carbon brake disc	BMW 3 (E90), X1 (E84) 2.0/2.5/3.0 01.05-12.11	on request
PRD2765	high carbon brake disc	BMW X5, X6 3.0/4.4i/4.8i 02.07-	on request
PRD6130	high carbon brake disc	BMW X5 (E70), X6 (E71, E72) 3.0sd-4.8i 08-	on request
PRD6191	high carbon brake disc	BMW X5 (E70), X6 (E71) 3.0 02.07-	on request

Drilled discs have better cooling properties through holes, which cause rapid heat transfer. This results in reducing the risk of overheating of the entire brake system and damage through the cracks. The whole is aimed at improving safety during vehicle braking. In addition, the holes in the disc friction surface allows for the extraction of dust from the brake pads accumulating between

the brake pad and the brake disc. Quick removal of dust improves the operation of the discs and affects the viability of the entire brake system.

ref.	nazwa	zastosowanie	status
PRD2324	drilled disc	MERCEDES C (W203,S203,CL203) 1.8-3.5 01-08, SLK (R171) 04-11, FORD C-MAX 10-	available
PRD2428	drilled disc	MERCEDES C,CLK,CLS,S (W203,S203,CL203,C209,A209,C219,W220) 00-10	available
PRD2551	drilled disc	MERCEDES C (W204,S204) 07-	available
PRD2758	drilled disc	MERCEDES S (W221) 2.1D-5.5 10.05-	on request
PRD2831	drilled disc	MERCEDES S (W220) 2.8/3.2/3.5 11.98-08.05	on request
PRD6143	drilled disc	PORSCHE 911 (996) 97-05	on request

We encourage You to make listing of references mentioned above in your system!

Best regards,  
Marketing Team
